Trenton Technology RoHS Product Availability Information

Trenton RoHS Overview

Since 2004 Trenton Technology has been actively engaged in refining the engineering and manufacturing procedures and processes necessary for RoHS and WEEE product compliance. Listed below is Trenton 's RoHS and WEEE compliance plan with a link to our RoHS product availability schedule.

1. Started shipping RoHS and WEEE certified products from our factory in Utica , NY in the first quarter of 2006.
2. RoHS certified Trenton products are manufactured using the industry standard SAC (Tin-Silver-Copper) alloy currently offered by the major solder paste manufacturers.
3. Trenton plans to continue to offer both non-RoHS and RoHS certified products for as long as possible. Contact Trenton for product specific availability information.
4. Trenton identifies RoHS certified products by using a specific RoHS part number.
5. Trenton 's RoHS and WEEE compliant products are marked with the following compliance identification labels:

RoHS Label

WEEE Label

Refer to the Trenton RoHS Product Chart listed below for detailed RoHS availability information on specific Trenton boards. Contact us if you have any questions or require further assistance.
